1 Introduction

This document demonstrates how to use a bibliography with LaTeX.

2 Citations

Here some citations :

2.1 scientifics Articles

L'article de Thomas et al. [?] studies iron complexes for hydrogenase modeling. This research is important for understanding the redox properties of catalysts.

2.2 Livre de référence

Le livre *Concrete Mathematics* of Graham, Knuth and Patashnik [?] is an essential reference in discrete and concrete mathematics.

3 Conclusion

Les références bibliographiques sont essentielles pour tout travail académique.
